Describe an occasion when you were a leader or set a positive example in your school. (200-500 words)*

Research Project

One component of the Fulbright Distinguished Awards in Teaching Program for International Teachers (Fulbright DAI) is to develop and complete a project relevant to classroom practice, teacher professional development, or to otherwise enhance education in your primary or secondary school community. Keeping in mind the challenges you identified in (c) of your Statement of Purpose, please describe a project you would like to undertake while in the United States. Please note that the project may be completed as an individual or group effort. Participants typically use interviews, observations, meetings, and other activities to complete their projects. The research project is intended to be practice-based and is not designed to support the development of dissertations or other research activities. Ph.D. students and researchers are encouraged to apply for the Fulbright Scholar Program or other more relevant programs.

Projects might include developing a unit of study on a specific topic or using specific methodologies, designing professional development workshops for colleagues, creating new educational materials, developing a curriculum or an action plan for differentiated instruction or that meets the needs of marginal populations (girls, immigrant or refugee students, students from low-income families, or other at-risk youth), or other topics of your choice. You will likely make changes to your project ideas once you begin your program in the United States, but please share your current thinking. Use your imagination and plan to remain flexible. Though we cannot guarantee that a host university will have faculty or partner teachers in exactly your area of interest, staff will do their best to connect you with relevant people and resources.

Please complete all information in English.
